## EDUCATION

### ABES Engineering College, ghaziabad — *B.TECH*

2022 - 2026

Currently doing my bachelor of technology in computer science.

### TRINITY GLOBAL SCHOOL, patna — *HIGH SCHOOL*

2017 - 2021

Scored 92.8% in 12th boards and 93.5% in 10th boards.

## PROJECTS

### STICKMAN-DASH — *Game*

This was my first-year mini-project, where I developed a Python game using Pygame. The game featured a stickman character that needed to jump and dodge obstacles. It was an engaging and enjoyable project.

### BYTESBUDDY — *Educational website*

Created an educational website designed to assist beginners in learning various programming domains, including competitive programming and open-source development. Users can register for an account, write and compile code, and track their progress with streaks

.Github link: <https://github.com/shashwat329/bytesbuddy>

## EXPERIENCE

### Freelancer, remote — *website developer*

July 2023 - September 2023

I developed a website for a local gym in my area. The website includes features such as a photo gallery showcasing the gym, information about gym hours and trainer schedules, and a registration page. Each registration is automatically stored in a Google Sheet for easy management and record-keeping.
